

# Module 11

## Provider Contacts Tool

# Provider Contacts Overview

- Allows ASPIRE sites to update provider information for the purpose of sending feedback emails.
- If opting out of ASPIRE and the feedback emails, the Provider Contacts tool does not need to be populated.
- The Provider Contacts tool cannot be populated until data has been submitted to MPOG Central. There will be no case information available until a site has successfully transferred to the Coordinating Center.

# Accessing Provider Contacts

- Can access via the MPOG Suite or this link  
<https://www.aspirecqi.org/AppSuite//UserManagement/index/>

### Login to MPOG

Log in with your username and password below.

HEALTHCARE TECHNOLOGY

An audit trail of all user activity is maintained for this system as it provides access to protected health information. Authorized access is limited only to those with a need to know for the purposes of patient care, billing, medical records review, or quality assurance.

Copyright 2004-2020 CareEvolution, Inc. All rights reserved.

- Clicking on the link will open the login screen.
- An additional level of access is needed to populate the User Management Tool.
- If your ASPIRE username and password does not work at this point, please contact the coordinating center ([support@mpog.zendesk.com](mailto:support@mpog.zendesk.com)) to obtain access.

- The *AIMs Staff ID*, *First Case Date*, *Last Case Date*, *Case Count*, *Mapped Staff Role*, and *Staff Role* columns of the User Management Tool (Provider Contacts) will be auto-populated based upon case information in the MPOG database.
- The technical team lead at your site should be able to assist with pulling the corresponding names for the AIMS Staff IDs listed.

# Mass Import

- To send the technical lead a list of the AIMS Staff IDs to obtain the corresponding first and last names, it may be useful to **export** the current list from the Provider Contacts tool. To do so, click on 'Export,' and then 'Import Template Format' (CSV or Excel).

\*The “All Columns” options will export all columns in the provider contact tool and should be used to obtain information only. The ‘all columns’ format will not work when trying to import first/last names and NPI numbers into the provider contacts tool.

# Mass Import

- Update the template with the provider information and save to your computer.
- Open the saved document using the “Excel/CSV Import” button. Select the format you wish to use for import. The import tool will only accept files using one of these two templates. **Errors will result from using a modified version of either of these templates**

- Return to the Excel/CSV Import page, select ‘Browse’ and locate the file on your computer and click ‘Open.’

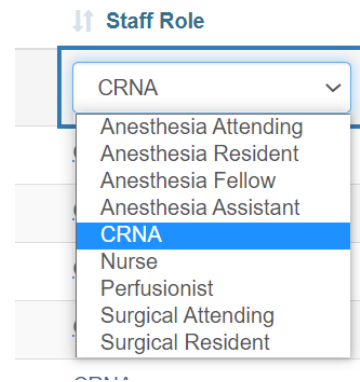

- The Provider Contacts tool will begin to update information from the selected file and will notify of any errors. Correct any errors as needed and then click ‘Submit.’

- Some sites have a single AIMS variable for anesthesia providers that is then mapped to the MPOG staff role concept: **Staff Level – Unable to Determine Anesthesia Provider.**
- In these instances, MPOG will display ‘Unknown’ in the ‘Mapped Staff Role’ column and rely on the site to populate the actual staff role in the seventh column.
- This column allows for provider feedback to include comparisons by role.

- If the ‘Staff Role’ and the ‘Mapped Staff Role’ columns match and are indicative of the providers’ actual roles in the clinical setting, no additional entry is required for the ‘Staff Role’ column.
- If the ‘Mapped Staff Role’ column is displaying incorrectly for a provider, you can update the ‘Staff Role’ directly within the user management tool (i.e. if the mapped staff role displaying for a CRNA is “Attending”) you can update it to read “CRNA” under the staff role column.

# Managing Feedback Email Recipients

- An 'Active' provider is defined as one who receives feedback emails.
- To update a provider's [Send Feedback?] status click the selection box on left hand side.
  - 'Yes' status means that the provider will receive feedback emails
  - 'No' status means that the provider will not receive feedback emails
  - 'Archive' status means that the provider no longer works at your institution and will not receive feedback emails.
- A prompt will then show in the top left corner where you can click 'Yes', 'No', or 'Archive' to update provider status

Change the selected providers' [Send Feedback?] status to  /  /

- You can change the status for multiple providers by selecting multiple rows or select all rows by clicking the top box next to “Send Feedback”
- You can change the provider’s status from ‘Yes’ to ‘No’ to ‘Archive’ and back. For example, if a provider no longer practices at your institution, change status from ‘Yes’ to ‘Archive’. If that provider returns later, you can change the status back to ‘Yes’.

- You can also filter the provider contacts list by status.

Further details regarding Account Status are shown for each provider in the last column:

- **Activated**: Activation email has been sent and provider has successfully set up their account.
- *Not Activated*: Activation email has not been sent
- *Activation Email Sent*: Activation email sent successfully. Provider has yet to click on the activation link to set up his or her account.
- **Activation Email Expired**: To resend an activation email, click 'Activation Email Expired' in the last column and follow the prompt

# Batch Activation

The screenshot shows the MPOG interface for batch activation. At the top, the logo for MULTICENTER PERIOPERATIVE OUTCOMES GROUP is visible. Below the logo, there are two buttons: 'Excel / CSV Import' and 'Batch Activation', with the latter highlighted by a red box. Underneath the buttons, there is a dropdown menu set to 'NA', a search box containing 'Show all AIMS\_Staff\_IDs', and a table with columns for 'MOCA4' and 'Account Status'. The table contains four rows, each with 'No' in the MOCA4 column and 'Account does not exist' in the Account Status column, accompanied by a person and envelope icon.

MOCA4	Account Status
No	Account does not exist
No	Account does not exist
No	Account does not exist
No	Account does not exist

- To send an activation email to all providers who have yet to receive one and to those who have let their activation email expire, you can use the Batch Activation button in the top right corner
- Click 'Send' when prompted

# Multiple AIMS Staff IDs

- Sites who convert from MPOG's Legacy Production method to Import Manager may see 2 AIMS Staff IDs listed for each provider in the provider contacts tool.
- To manage the AIMS Staff IDs affiliated with Import Manager only, select 'Hide old AIMS\_Staff\_IDs' in the dropdown menu seen below.
