

MPOG

MULTICENTER PERIOPERATIVE
— OUTCOMES GROUP —

MPOG Retreat
Friday, October 21, 2022

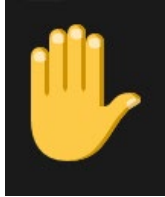

Welcome!

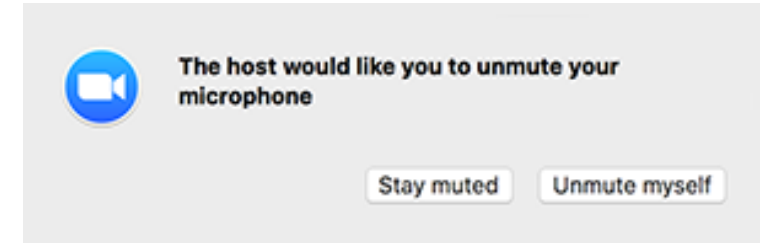

We will begin shortly...

Virtual Participant Housekeeping

Two ways to ask a question:

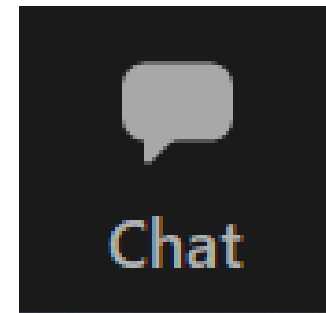

- **To speak**

- Use the 'Raise Hand' button 
- The host will call your name and you will be enabled to speak
- If you join the webinar by phone, dial *9 to raise your hand

- **Send Question via Chat**

- Click the 'Chat' button to open the chat panel
- Type your message in the text box and a member of the Coordinating Center will read your question

In-Person Participant Housekeeping

- If you want to ask a question, please go to the microphones in the front of the room
- Wifi Information
 - Name: JW Marriott_Conference
 - Password: meeting2022

MPOG Retreat

Friday, October 13, 2023

San Francisco, California

MPOG 2022 Annual Retreat

Sachin Kheterpal, MD, MBA

Thanks

- Kevin Tremper
 - Mark Dehring
 - Sushma Vallamkonda
 - Shelley Vaughn
 - Jay Jeong

Chris Heiden
Anik Sinha
Robert Coleman
Mike Burns
Allison Janda
Douglas Colquhoun
Chelsea Cloyd
Ronnie Riggat
Tiffany Malenfant
Manal Saad
- Kate Buehler
John Vandervest
Michelle Romanowski
Nicole Barrios
Calvin Shenk
Nick Douville
Meridith Bailey
David Clark
Rachel Hurwitz
Sandra Rozek
Sydney Brown
Sathish Kumar

Time flies when you're in a pandemic

Progress as we figure out the “new normal”

- Many personal challenges for faculty and staff over last year
- Welcome new contributing sites
 - American University of Beirut
 - Seattle Children’s Hospital
West Branch
 - Multiple additional hospitals at existing MPOG institutions
- Natural evolution of the MPOG mission
 - Quality improvement: Dashboards -> Toolkits -> Practice Change Facilitation
 - Research: Retrospective (prediction, descriptive) -> Causal inference -> Prospective trials
 - Education: Literature synopsis -> Research fellowships and “Digital consult” (ProView)
- Robust, diverse, and growing funding

Boston Children’s Hospital

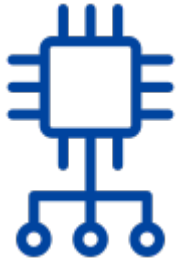

MyMichigan Clare, Gladwin, Gratiot,

What have we been up to?

Integrating quality improvement and research

Everyday impact of mature IT, tools, and machine learning

Getting closer to the patient & clinician across missions

Distributing leadership, work, and funding across centers

Where do we go from here?

Broader

Broader?
More hospitals?
More missions?
ICU and Chronic pain?

More clinical impact?
Closer to the patient?
Higher research impact?
More data sources?

Deeper

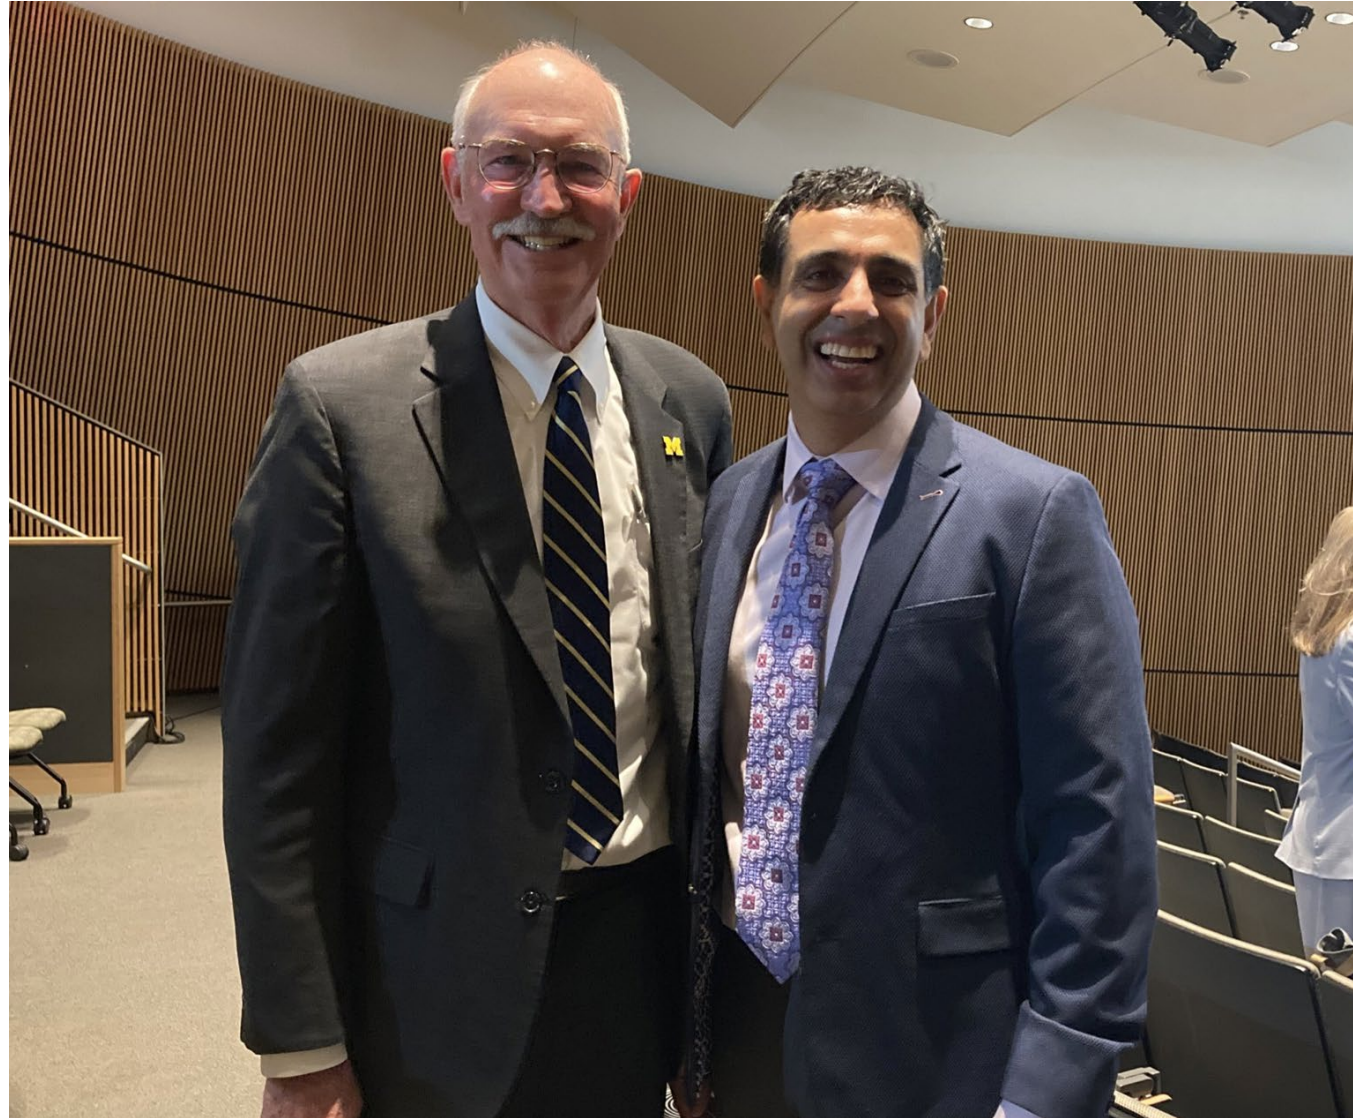

- Our membership, executive board, and funding will guide us
- Hard choices await
- Great problem to have

Some reasons for celebrating

Kevin K Tremper Professorship

He got me to wear a tie...

Thank you
