

## MPOG New Member Application

Thank you for your interest in joining the Multicenter Perioperative Outcomes Group (MPOG)! We are excited about your potential participation. Please note, MPOG participation requires current use of an anesthesia electronic health record. Contact us ([mpog-admin@med.umich.edu](mailto:mpog-admin@med.umich.edu)) before filling out an application if your site does not currently have an anesthesia EHR.

Please address all questions in this application to ensure a smooth onboarding process. You may need to contact other teams at your site (billing, quality, IT) to obtain all required information. This form can take about 20 minutes to complete and must be completed once - you are not able to save and edit later. Once we receive your submission, we will follow up via email with the next steps. We appreciate your interest and look forward to connecting with you. Thank you!

Section 1

### Submitter Contact Information

1. First Name \*

2. Last Name \*

3. Title/Role \*

4. Preferred Pronoun

5. Email Address \*

6. Employer \*

## General Site Information

7. Health System Name (if your facility not part of a health system, enter facility name here) \*

8. Street Address \*

9. City \*

10. State/Province \*

11. Zip \*

12. Country \*

13. How many total cases are performed annually (approximate)? \*

14. Is your organization located in the State of Michigan? \*

Yes

No

## Hospital Pay-for-Performance (P4P Administrator) Contact Information

If your hospital participates with any other BCBSM Collaborative Quality Initiatives (CQI), it is likely that the hospital has designated a P4P Administrator who manages the program. Please enter their contact information below (If you do not know the hospital P4P Administrator for your site, please contact [mpog-admin@med.umich.edu](mailto:mpog-admin@med.umich.edu) for assistance.)

15. First Name \*

16. Last Name \*

17. Credentials \*

18. Preferred Pronoun

19. Email address \*

## Single Facility

21. Facility Name \*

Enter your answer

22. Facility NPI (if known)

Enter your answer

23. Type of Facility

1. **Freestanding ASC:** A standalone Ambulatory Surgery Center that would require transport to the hospital via ambulance if postoperative admission is needed. This location can be affiliated with a specific hospital, or it could be part of a larger health system with no specific hospital affiliation.
2. **Attached ASC:** Ambulatory Surgery Center that is physically connected to a hospital. If a patient requires postoperative admission, transport to the hospital can be via stretcher or wheelchair, no ambulance transfer required.
3. **Freestanding Cancer Center:** An independent hospital that primarily treats patients with cancer.
4. **Cancer Center Affiliate:** A surgery center or hospital that primarily treats patients with cancer but is affiliated with a larger hospital. This location can be in a separate building on a hospital campus or only a few floors within the main hospital.
5. **Freestanding Children's Hospital:** A standalone hospital dedicated to providing services primarily to pediatric patients (at least 120 pediatric beds).
6. **Children's Hospital Affiliate:** A hospital dedicated to providing services primarily to pediatric patients but is affiliated with a larger hospital. This location can be in a separate building on a hospital campus or only a few floors within the main hospital.
7. **Freestanding Children's Cancer Center:** A standalone hospital dedicated to providing services primarily to pediatric cancer patients (at least 120 pediatric beds).
8. **Women's Hospital:** A hospital that primarily provides women's health services, including maternal fetal medicine. This location is usually affiliated with a larger hospital and can be in a separate building on the hospital campus or only a few floors within the main hospital.
9. **Cardiovascular Center:** A surgery center that is dedicated to cardiovascular care. This location is usually affiliated with a larger hospital and can be in a separate building on the hospital campus or only a few floors within the main hospital.

## Multiple Facilities

25. How many facilities do you anticipate will join MPOG? \*

List up to 10 Hospitals and ASCs that plan to join MPOG from your health system. If there are more than 10 hospitals and ASCs, the MPOG team will discuss onboarding plan for your health system during our introductory meeting.

The value must be a number

## Technical Details

75. Is your facility or facilities all on the same electronic health record instance?

EHR Instance: A unique installation of your EHR software. For example, a health system may have a single instance of Epic across all hospitals in the system or multiple instances of Epic if the health system acquired hospitals over time and has not yet converted all hospital to the same EHR instance.

Select your answer 

76. Is the inpatient (floor, ICU, preop, PACU) electronic health record documentation system the same as the anesthesia electronic health record?

Select your answer 

77. Inpatient Electronic Health Record

Select your answer 

78. Are anesthesia professional fee services provided by the hospital?

Select your answer 

79. Are the anesthesia professional fees stored in the EHR to support billing for any of these provider types? Check all that apply.

- Anesthesiologists
- CRNAs
- AAs
- No
- Unknown

80. Are anesthesia professional fee billing services supported by an external practice or billing vendor?

Select your answer 

81. Name of anesthesia billing vendor/practice #1

Enter your answer

82. Which roles does this group support for billing services? Select all that apply.

- Anesthesiologists
- CRNAs
- AAs

83. Do you have an additional anesthesia billing vendor/practice?

Yes

No

84. Name of anesthesia billing vendor/practice #2 (if applicable)

Enter your answer

85. Which roles does this group support for billing services? Select all that apply.

Anesthesiologists

CRNAs

AAs

86. Do you have an additional anesthesia billing vendor/practice?

Yes

No

87. Name of anesthesia billing vendor/practice #3 (if applicable)

Enter your answer

88. Which roles does this group support for billing services? Select all that apply.

Anesthesiologists

CRNAs

AAs

89. Anesthesia Professional Fee Billing Comments

Enter your answer

## Staffing Model Information

90. Does the facility contract anesthesia services from a private practice or external entity?

Select your answer
