CME Credit

Planner: Michael Englesbe, MD, Michigan Medicine

Target Audience: General surgeons, anesthesiologists, and other healthcare providers from the state of Michigan.

Description: The April 11th MSQC/ASPIRE Tri-Annual Meeting will bring together surgeons, anesthesiologists, nurses and other members of the healthcare team from across the state of Michigan to discuss data, identify trends and hear from renowned speakers on a variety of topics that will address knowledge gaps applicable to members of both collaboratives.

Expected Results: After this meeting, participants will be able to implement general surgery advances including implementing new frailty screening requirements, appropriately administering delirium screening in the elderly, improving the overall patient experience, and utilizing new trends in pain management to optimize pain control for complex pain patients.

Register: TBD
