

## Important Announcements

- Feasibility IRB application submitted May 9th
- [ClinicalTrials.gov registration is live!](https://clinicaltrials.gov)
- Visit and share the MPOG THRIVE website link <https://mpog.org/thrive-info/>

## Coordinating Center Updates

### Clinical Coordinating Center

- Manual of Procedures in process
- Clinician education videos in production
- Currently Reviewing SFQ submissions

### Data Coordinating Center

- Working on prelim analysis to evaluate eligible patient populations at MPOG sites
- Recruitment dashboard is in development (MQUARK software)
- Started building dry run instance of MyDataHelps (patient-facing application)
- Randomization algorithm specification in progress
- THRIVE webpages on MPOG website are active - <https://mpog.org/thrive-info/>

### Patient Partnership Leadership Center

- Actively recruiting patient partners
- Patient & Caregiver Engagement Working Group is meeting
- The Patient Partner Panel kicked off on May 24th & May 25th. A total of 13 patient partners participated and reviewed the THRIVE patient recruitment handout.
- Intake form for any working group or Center needing Patient Panel feedback has been developed with the goal of it being completed and documents (if applicable) distributed and shared with the Patient Partner Panel 1-week prior to their scheduled meeting [THRIVE Patient Partner Panel Feedback Request Form](#)
- Patient Partner Handbook developed
- Patient Partner Onboarding Survey developed and launched

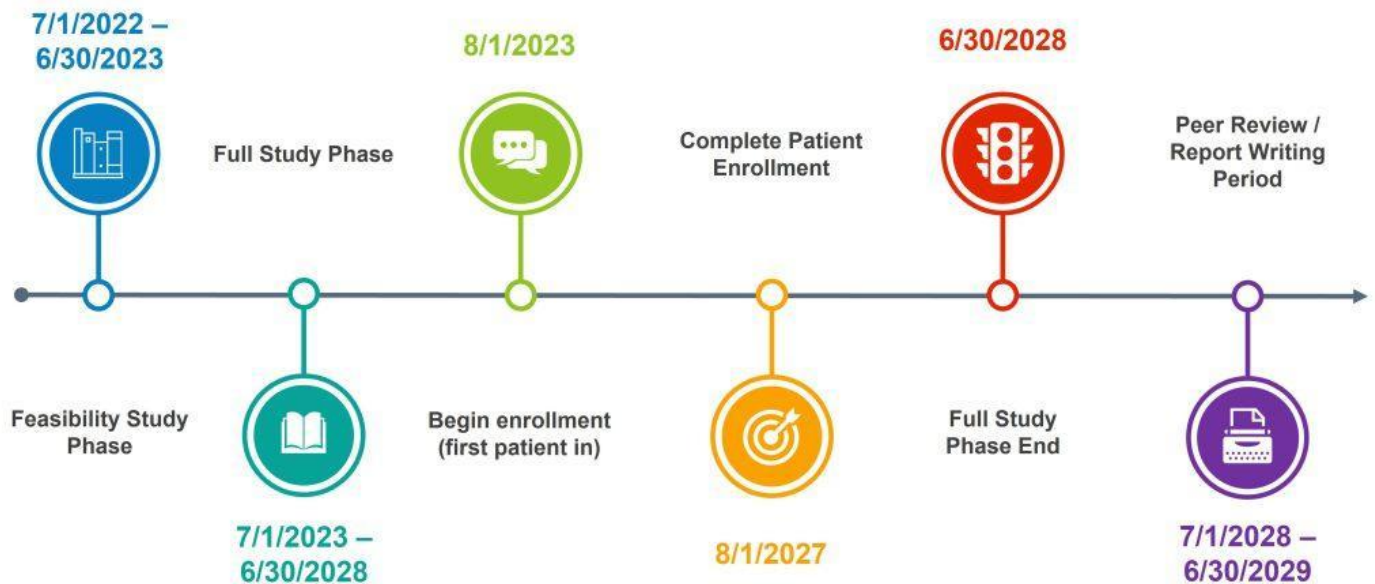

### Administrative

- THRIVE [Glossary of Terms & Acronyms](#)
- Subcontracting nearing completion
- Updated [Administrative Structure](#)

## In the works!

- THRIVE working groups are meeting to operationalize different aspects of the THRIVE trial - you may be invited to participate on one or more groups
- This newsletter is in the process of being transitioned to MailChimp sometime this summer. The goal will be to streamline content development and distribution.
- The patient-facing website's relevant domain names have been acquired

## Timeline

## Emerging Literature

**Public Attitudes Towards Consent**: examines empirical data from the US regarding approaches to consent for pragmatic research

**The intrinsic value of choice**: this study tests whether people are inclined to forgo monetary rewards in order to retain agency when faced with choices that could lead to losses and gains

**Suggestion Box**: [tell us the kinds of updates you would like to receive!](#)
