## Agenda & Notes

- 1) **Roll Call:** Will contact QI Champions and ACQRs directly to inquire about participation status if missing. Other participants can review meeting minutes and contact the Coordinating Center if they are missing from the attendance record.
- 2) **Minutes from November 22, 2021 meeting approved-** minutes and recording posted on the website for review
- 3) **Announcements & Updates**
  - a) PONV 05 Released! This measure is the new adult PONV prophylaxis measure reflective of the latest PONV guidelines (2020). Please review your site data and after case review, let the Coordinating Center know if additional changes are recommended. Will postpone including PONV 05 on provider feedback emails for a couple of months to allow for this review. PONV 01 will not be retired for a couple of months so sites can compare scores between the new adult prophylaxis measure and the existing. Plan to retire both PONV 01 and PONV 02 in April.
  - b) Featured Member January and February 2022 – Bishr Haydar, University of Michigan & MPOG Pediatric Subcommittee Chair
  - c) Provider Feedback Email Selection Notification
    - i) Reminder to Quality Champions and ACQRs that they will receive an automated email in January and July as a reminder of site selected measures
    - ii) Opportunity to review and modify measure selection
    - iii) Last email was sent at the beginning of January
    - iv) Michigan sites: May want to add new P4P measures at this time
  - d) Upload Reminders
    - i) Calendar invites have been sent to those individuals who perform data uploads to MPOG on a monthly basis
    - ii) If you did not receive a calendar invite and would like to be included, please contact [support@mpog.zendesk.com](mailto:support@mpog.zendesk.com)

- iii) GOAL: Communicate upload deadlines more effectively to prevent provider feedback emails from being held.
- 4) **Upcoming Events**
  - a) Quality Committee Meetings via Zoom: 2022 calendar is posted on [website](#)
    - i) Monday, February 28, 2022
    - ii) ASPIRE/MSQC meeting: Friday, April 8, 2022
- 5) **Smoking VBR 2023: Michigan Sites Only**
  - a) New Additional VBR focus area: Smoking Cessation
    - i) Measurement period: 12/1/2021-11/30/2022
    - ii) New additional reimbursement: 2% (on top of the potential 5%)
    - iii) New Measures (officially approved by BCBSM):
      - (1) Improve smoking status documentation within 30 days prior to surgery. Target: 70%
      - (2) Increase the proportion of smokers who receive treatment/cessation counseling. Target: 1%
    - iv) Additional communication from the Coordinating Center to be sent later this week to Michigan Quality Champions and ACQRs.
- 6) **TOC 01 Update**
  - a) In November, TOC 01 was reviewed by the Quality Committee (led by Dr. Alex Bouwhuis, Holland Hospital & Eric Davies, Henry Ford Allegiance)
    - i) [Feedback from Measure Reviewers](#)
    - ii) See [slides](#) with presentation from Dr. Bouwhuis regarding TOC 01 with recommendation to continue the measure as is
    - iii) Zoom Recording available to hear full discussion
    - iv) Recommendations from reviewers:
      - (1) Alex Bouwhuis (Holland) recommends continuing the measure as is
      - (2) Eric Davies (Henry Ford Allegiance) recommends retiring the measure
    - v) Follow-up to that discussion:
      - (1) Reviewed measure 11/2022 (Drs. Davies and Bouwhuis)
      - (2) Discussed “modify” votes with quality champions - most were interested in better EHR tools to complete the handover process and/or include supervising providers
      - (3) Several MI still working on handover initiatives - keep on dashboard
      - (4) Multicenter Handoff Collaborative (APSF) and Epic workgroups - workshop 2/2022
- 7) Measure Review: [PUL 03](#) (Dr. Joel Kileny, St. Joseph Mercy Ann Arbor)
  - a) See slides with presentation from Dr. Kileny regarding PUL 03 with recommendation to continue the measure as is
  - b) Zoom Recording available to hear full discussion
  - c) Recommendations from reviewer:
    - i) Continue measure as is
  - d) Chat Comments:
    - i) Tim Harwood (Wake Forest): Recommends that the measure exclude outpatient cases and other procedures that have not yet been studied.
      - (1) Nirav Shah (MPOG Quality Director): Great point! Is implementation different in the outpatient setting compared to inpatient? Definitely something we should consider.
  - e) Vote:
    - i) **Continue as is: 71% (20/28)**
    - ii) Modify: 18% (5/28)

- iii) Retire: 11% (3/28)
- 8) Precision Feedback Study- Zach Landis-Lewis, PhD (University of Michigan)
  - a) Evaluation and Improvement of Provider Feedback emails
  - b) Awarded an RO1 grant to identify the best way to engage providers in reviewing their performance thus leading to improved outcomes
  - c) See presentation slides for more details about this study and associated timeline
- 9) Delirium Project- Phil Vlisides, MD (University of Michigan)
  - a) New QI project to improve delirium screening in routine clinical setting
  - b) Three Phased Approach
    - i) Conduct surveys and focus groups with nursing colleagues to determine barriers to delirium screening practices on hospital wards.
    - ii) Based on barriers identified, conduct a pilot implementation trial with the goal of improving delirium screening frequency and accuracy.
    - iii) Collaborate with the Michigan Value Collaborative to determine the impact of delirium detection on healthcare value and costs during hospitalization
  - c) Reach out to [Phil Vlisides](#) with any questions.

**Meeting concluded at 1100 EST**
