

Module 19 STS Import Tool

STS Import Tool

- To use the STS import tool:
 - First use your STS vendor application to extract a harvest file containing MRNs (or SSNs if MRNs are not available).
 - The instructions for different vendors in subsequent slides.
 - Once you have a harvest file, use the MPOG Application Suite to input this data into your local MPOG database.
 - The data can then be PHI scrubbed and transferred to the central repository.

- Once you have your harvest file ready, open the MPOG Application Suite.
- 2. Open the STS Import application.

3. The first screen will show you the import status (which months of data have been imported and what percentage of those STS records have been patient-matched locally). Click on the import tab to start an import of a harvest file

M STS Import				
Status Import]			
Import Status				
Month	STS Case Coun	t % Patient Matched	Last Imported	
January 2012	104	100.00	12/15/2016 2:39:19 PM	
February 2012	85	98.82	12/15/2016 2:39:19 PM	
March 2012	88	98.86	12/15/2016 2:39:17 PM	
April 2012	70	98.57	12/15/2016 2:38:57 PM	
May 2012	91	100.00	12/15/2016 2:39:19 PM
