

Module 10

Content Synchronization

Content Synchronization Overview

- Allows you to synchronize or apply changes to content such as new concepts and PHI terminology within your local database.
- MPOG recommends performing ‘Content Synchronization’ on a monthly basis.
- You may also be advised by the Coordinating Center to perform ‘Content Synchronization’ to pull over specific content to continue mapping new variables or update diagnostics.
- The MPOG Quality Improvement Coordinators will notify you when ‘Content Synchronization’ is required outside of the monthly recommendation.

Accessing Content Synchronization

Content Synchronization

- A notification ball will appear on the “Content Synchronization” button if any new content is available

- This window will open in ‘Content Synchronization.’ Using the default settings seen below, select ‘Synchronize Content.’

- Once you have selected ‘Synchronize Content,’ retrieving content will begin and systematic downloading of new content will occur.
- Once the content retrieval process has completed, you will notice a ‘finished’ comment in the ‘Retrieving Content’ window, indicating ‘Content Synchronization’ was successful.
