

# Module 11

## Provider Contacts Tool

# Provider Contacts Overview

- Allows ASPIRE sites to update provider information for the purpose of sending feedback emails.
- If opting out of ASPIRE and the feedback emails, the Provider Contacts tool does not need to be populated.
- The Provider Contacts tool cannot be populated until data has been submitted to MPOG Central. There will be no case information available until a site has successfully transferred to the Coordinating Center.

# Accessing Provider Contacts

- Can access via the MPOG Suite or this link  
<https://www.aspirecqi.org/AppSuite//UserManagement/index/>

### Login to MPOG

Log in with your username and password below.

	<input type="text" value="Username"/>
	<input type="password" value="Password"/>
<input type="button" value="Login"/>

HEALTHCARE TECHNOLOGY

An audit trail of all user activity is maintained for this system as it provides access to protected health information. Authorized access is limited only to those with a need to know for the purposes of patient care, billing, medical records review, or quality assurance.

Copyright 2004-2020 CareEvolution, Inc. All rights reserved.

- Clicking on the link will open the login screen.
- An additional level of access is needed to populate the User Management Tool.
- If your ASPIRE username and password does not work at this point, please contact the coordinating center ([support@mpog.zendesk.com](mailto:support@mpog.zendesk.com)) to obtain access.

- The *AIMs Staff ID*, *First Case Date*, *Last Case Date*, *Case Count*, *Mapped Staff Role*, and *Staff Role* columns of the User Management Tool (Provider Contacts) will be auto-populated based upon case information in the MPOG database.
- The technical team lead at your site should be able to assist with pulling the corresponding names for the AIMS Staff IDs listed.

# Mass Import

- To send the technical lead a list of the AIMS Staff IDs to obtain the corresponding first and last names, it may be useful to **export** the current list from the Provider Contacts tool. To do so, click on 'Export,' and then 'Import Template Format' (CSV or Excel).

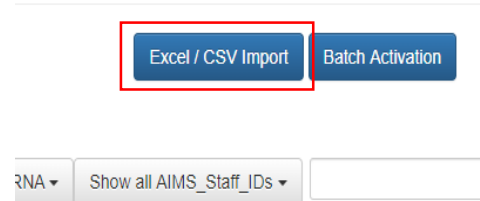

The screenshot shows a user interface for the Provider Contacts tool. At the top, there is a 'Show' dropdown set to '10' and the text 'entries at a time'. Below this is a 'Send Feedback?' section with a checkbox and a 'No' button. To the right, an 'Export' button has been clicked, opening a dropdown menu. The menu contains four options: 'Excel (All columns)', 'Excel (Import Template Format)', 'CSV (All columns)', and 'CSV (Import Template Format)'. The last two options are highlighted with red rectangular boxes.

\*The “All Columns” options will export all columns in the provider contact tool and should be used to obtain information only. The ‘all columns’ format will not work when trying to import first/last names and NPI numbers into the provider contacts tool.

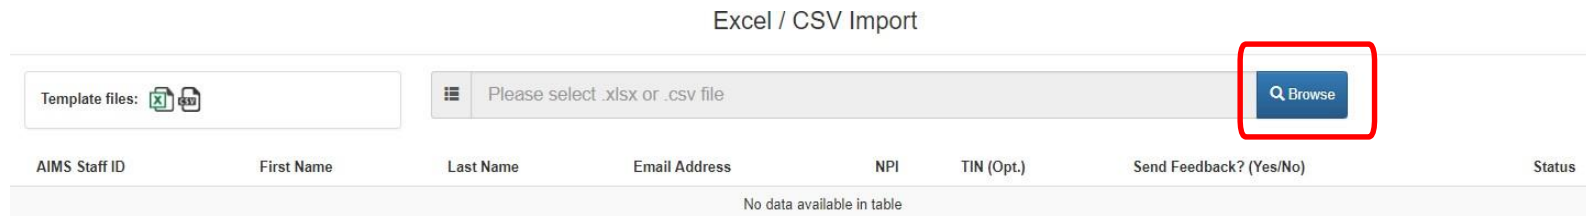

# Mass Import

- Update the template with the provider information and save to your computer.
- Open the saved document using the “Excel/CSV Import” button. Select the format you wish to use for import. The import tool will only accept files using one of these two templates. **Errors will result from using a modified version of either of these templates**

The screenshot shows a web interface with two buttons: "Excel / CSV Import" and "Batch Activation". The "Excel / CSV Import" button is highlighted with a red rectangular box. Below the buttons, there are two dropdown menus: "RNA" and "Show all AIMS\_Staff\_IDs", followed by an empty text input field.

- Return to the Excel/CSV Import page, select ‘Browse’ and locate the file on your computer and click ‘Open.’

The screenshot shows the "Excel / CSV Import" page. At the top, it says "Excel / CSV Import". Below this, there is a section for uploading template files. On the left, it says "Template files:" followed by icons for Excel and CSV. In the center, there is a text box that says "Please select .xlsx or .csv file". On the right, there is a blue button with a magnifying glass icon and the word "Browse", which is highlighted with a red rectangular box. Below this section, there is a table with the following headers: "AIMS Staff ID", "First Name", "Last Name", "Email Address", "NPI", "TIN (Opt.)", "Send Feedback? (Yes/No)", and "Status". The table body is empty, and a message "No data available in table" is displayed at the bottom.

- The Provider Contacts tool will begin to update information from the selected file and will notify of any errors. Correct any errors as needed and then click ‘Submit.’

- Some sites have a single AIMS variable for anesthesia providers that is then mapped to the MPOG staff role concept: **Staff Level – Unable to Determine Anesthesia Provider.**
- In these instances, MPOG will display ‘Unknown’ in the ‘Mapped Staff Role’ column and rely on the site to populate the actual staff role in the seventh column.
- This column allows for provider feedback to include comparisons by role.

- If the 'Staff Role' and the 'Mapped Staff Role' columns match and are indicative of the providers' actual roles in the clinical setting, no additional entry is required for the 'Staff Role' column.
- If the 'Mapped Staff Role' column is displaying incorrectly for a provider, you can update the 'Staff Role' directly within the user management tool (i.e. if the mapped staff role displaying for a CRNA is "Attending") you can update it to read "CRNA" under the staff role column.

# Managing Feedback Email Recipients

- An 'Active' provider is defined as one who receives feedback emails.
- To update a provider's status to Active or Inactive, click the selection box on left hand side.
- A prompt will then show in the bottom left corner where you can click Yes or No to update provider status

Change the selected providers' [Send Feedback?] status to  /

- You can change the status for multiple providers by selecting multiple rows or select all rows by clicking the top box next to “Send Feedback”

Further details regarding Account Status are shown for each provider in the last column:

- **Activated**: Activation email has been sent and provider has successfully set up their account.
- **Not Activated**: Activation email has not been sent
- **Activation Email Sent**: Activation email send successfully. Provider has yet to click on the activation link to set up his or her account.
- **Activation Email Expired**: To resend an activation email, click 'Activation Email Expired' in the last column and follow the prompt

# Batch Activation

The screenshot shows the MPOG (Multicenter Perioperative Outcomes Group) interface. At the top, there is a logo and the text "MULTICENTER PERIOPERATIVE OUTCOMES GROUP". Below this, there are two buttons: "Excel / CSV Import" and "Batch Activation". The "Batch Activation" button is highlighted with a red rectangle. Below the buttons, there is a dropdown menu set to "NA" and a text input field containing "Show all AIMS\_Staff\_IDs". Below this, there are two columns of data: "MOCA4" and "Account Status". The "MOCA4" column has four rows, all with the value "No". The "Account Status" column has four rows, all with the value "Account does not exist". Each row in the "Account Status" column has an icon of a person with a plus sign and an envelope.

- To send an activation email to all providers who have yet to receive one and to those who have let their activation email expire, you can use the Batch Activation button in the top right corner
- Click 'Send' when prompted

# Multiple AIMS Staff IDs

- Sites who convert from MPOG's Legacy Production method to Import Manager may see 2 AIMS Staff IDs listed for each provider in the provider contacts tool.
- To manage the AIMS Staff IDs affiliated with Import Manager only, select 'Hide old AIMS\_Staff\_IDs' in the dropdown menu seen below.
