3:00pm Adjourn

CME Credit

Planner: Michael Englesbe, MD, Michigan Medicine

Target Audience: General surgeons, anesthesiologists, and other healthcare providers from the state of Michigan.

Description: The March 13 MSQC/ASPIRE Tri-Annual Meeting will bring together surgeons, anesthesiologists, nurses and other members of the healthcare team from across the state of Michigan to discuss data, identify trends and hear from renowned speakers on a variety of topics that will address knowledge gaps applicable to members of both collaboratives.

Expected Results: After this meeting, participants will be able to implement general surgery advances including 1) describe key components of multimodal pain management strategies and their role in optimizing postoperative outcomes, 2) analyze current data, policies, and practice variations to identify opportunities for improving multimodal pain management across surgical settings, 3) discuss approaches to managing complex pain scenarios, including considerations for high-risk and opioid tolerant patients, and 4) explain the goals and impact of the Heal Better, Feel Better After Surgery initiative.

Register: TBD
